About the Sundance Collection

The Sundance Collection brings the timeless artistry of film photography into the modern digital darkroom. Inspired by classic cinema and iconic film stocks, this collection combines rich cinematic color, moody undertones, and beautifully nuanced skin tones. From soft, milky highlights and warm bronze hues to dramatic shadows and nostalgic, desaturated finishes, Sundance captures the depth and character of authentic film with the versatility and precision of modern editing.

- Includes 159 Presets
- Includes 22 Brush Presets **(Not yet available for Mobile/LR CC)*
- Compatible with Lightroom CC, Lightroom Classic & Adobe Camera Raw
- Presets are Easily Modified & Stackable

Sundance Collection Presets

CORRECT LENS VIGNETTING

Lens Correction ON - Enables Lightroom's built-in lens profile corrections to help correct distortion and vignetting based on the lens used.
Lens Correction OFF - Disables Lightroom's built-in lens profile corrections, returning the image to its uncorrected lens characteristics.

CALIBRATE FILM EXPOSURE

Adjusts overall exposure in graduated steps, allowing you to brighten or darken your image while maintaining your chosen film aesthetic.

GRAY CARD WHITE BALANCE

Auto White Balance ON - Automatically balances color temperature and tint.
Auto White Balance OFF - Disables automatic white balance adjustments.
Golden Glow ON - Adds a warm, golden glow to the image.
Calming Cool ON - Adds a subtle, cooling effect to the image.
Temperature OFF - Removes temperature adjustments, restoring the original camera setting.
Green Shift ON - Adds a subtle green tint to fine-tune color balance.
Magenta Shift ON - Adds a subtle magenta tint to balance green color casts.
Tint Shift OFF - Removes tint adjustments, restoring the original camera setting.

Sundance Collection Presets

A.I. ADAPTIVE BRUSHWORK

Low-Contrast Subject Pop - Brightens and enhances subjects with low contrast to restore clarity, depth and dimension.
High-Contrast Subject Pop - Balances subjects with strong contrast for improved lighting, detail and definition.
Lighter Background Base - Subtly enhances lighter backgrounds while maintaining a bright, natural appearance.
Neutral Background Base - Balances background exposure and contrast for a clean, natural look.
Darker Background Base - Deepens backgrounds to add richness, depth and subject separation.
Darkest Background Base - Significantly darkens backgrounds for dramatic depth, richer tones and stronger subject separation.
Diffused Dynamic Sky - Softens harsh sky details while balancing highlights and contrast for a smoother, more atmospheric finish.

Sundance Collection Presets

A.I. ADAPTIVE RETOUCH

Skin Smoother - Softens and smooths skin while preserving natural texture and detail.
Iris Catchlights - Brightens the irises and enhances catchlights for added sparkle and definition.
Whiten Eye Whites - Brightens and whitens the whites of the eyes for a clean, refreshed appearance.
Whiten Teeth - Gently whitens teeth for a brighter, more natural-looking smile.
Lip Color Boost - Enhances natural lip color for added richness and definition.
Hair Contrast Boost - Enhances contrast and definition in the hair for added depth and dimension.
Outfit Contrast Boost - Enhances clothing contrast to bring out texture, detail and dimension.
Play Them All - Applies all A.I. Adaptive Retouch enhancements in one step for a complete portrait retouch.

Sundance Collection Presets

CINEMATIC FILM STOCKS

Gone With The Wind - Creates a soft, romantic film aesthetic with muted greens, gentle contrast, and warm, nostalgic undertones.
A West Side Story - Blends balanced contrast with rich, natural colors and subtly softened greens for a timeless cinematic finish.
Citizen Kane - Delivers a classic film aesthetic with refined contrast, subdued colors, and softly defined shadows.
Cool Hand Luke - Introduces cooler undertones, subdued greens, and balanced contrast for a clean, understated film look.
Streetcar Named Desire - Creates a dramatic, moody finish with deepened shadows, earthy olive greens, and rich cinematic contrast.
Lawrence Of Arabia - Enhances warm, earthy hues with softened highlights, muted foliage, and subtle contrast for a sun-washed, vintage film aesthetic.
Breakfast At Tiffany's - Produces an elegant, polished film look with delicate warmth, creamy highlights, and softly balanced colors.
The Sound Of Music - Combines warm, natural tones with softened greens and gentle contrast for a rich, nostalgic finish.
Wuthering Heights - Creates a romantic, moody aesthetic with deep, muted greens, softened highlights, and rich, atmospheric shadows.
Singin' In The Rain - Blends cooler greens and muted tones with softly lifted highlights and cinematic contrast for a nostalgic film finish.
My Fair Lady - Delivers a delicate, timeless aesthetic with creamy skin tones, subtle warmth, and beautifully balanced contrast.
Some Like It Hot - Enhances warm undertones, rich earthy colors, and luminous highlights for a vibrant, vintage-inspired film look.

Sundance Collection Presets

CINEMATIC FILM STOCKS

Casablanca - Creates a classic, understated film aesthetic with subdued greens, muted colors, and soft, nostalgic contrast.
Reduce Film-Like Texture - Softens the textured appearance of the cinematic film presets for a smoother, more refined finish.

Sundance Collection Presets

IMMERSIVE COLOR GRADING

Garden State - Soft, earthy color with muted greens, gentle warmth, and natural contrast.
Little Miss Sunshine - Light, airy color with luminous highlights, soft pastels, and a delicate warmth.
Dead Poets Society - Moody, cinematic color with subdued greens, deeper shadows, and softened highlights.
Dances With Wolves - Cool, atmospheric tones with muted greens, subdued warmth, and cinematic depth.
Memento - Warm, nostalgic color with earthy undertones, softened greens, and gentle contrast.
Good Will Hunting - Muted, natural tones with restrained warmth, softened color, and subtle contrast.
The Big Lebowski - Rich, cinematic color with warm undertones, subdued greens, and balanced contrast.
Grey Gardens B&W - Soft, luminous black and white with delicate contrast and gentle tonal transitions.
Donnie Darko B&W - Dramatic black and white with deeper shadows, stronger contrast, and rich tonal depth.

Sundance Collection Presets

PRISMATIC MOOD RING

Choose 'with Subject' to apply color grading throughout the image, or 'without Subject' to apply the effect to the background while preserving the subject.

Golden - with Subject - Adds soft, golden warmth throughout the image.
Golden - without Subject - Adds golden warmth while preserving the subject.
Rust - with Subject - Adds earthy, reddish-orange tones for a nostalgic finish.
Rust - without Subject - Adds rustic warmth while preserving the subject.
Rosy - with Subject - Adds soft, romantic rosy-pink tones.
Rosy - without Subject - Adds rosy-pink tones while preserving the subject.
Lavender - with Subject - Adds soft lavender tones for a dreamy finish.
Lavender - without Subject - Adds lavender tones while preserving the subject.
Steel - with Subject - Adds cool, steel-blue tones for a muted finish.
Steel - without Subject - Adds steel-blue tones while preserving the subject.
Turquoise - with Subject - Adds fresh, airy blue-green tones.
Turquoise - without Subject - Adds turquoise tones while preserving the subject.
Olive - with Subject - Adds muted, earthy green undertones.
Olive - without Subject - Adds olive-green tones while preserving the subject.
Chartreuse - with Subject - Adds fresh, subtle yellow-green tones.
Chartreuse - without Subject - Adds yellow-green tones while preserving the subject.

Sundance Collection Presets

CREAMS, MATTES & EMULSIONS

Light Cream - with Subject - Gently lifts shadows and softens contrast across the entire image for a subtle, creamy finish.
Light Cream - without Subject - Applies the same creamy finish to the background while preserving the subject.
Heavy Cream - with Subject - Elevates shadows for a brighter, softer, more pronounced creamy appearance.
Heavy Cream - without Subject - Creates a stronger creamy finish in the background while preserving the subject.
Neutral Matte - with Subject - Lifts blacks for a balanced, understated matte finish throughout the image.
Neutral Matte - without Subject - Adds a subtle matte finish to the background while preserving the subject.
Dark Matte - with Subject - Softens highlights for a darker, muted matte finish across the image.
Dark Matte - without Subject - Creates a darker matte background while preserving the subject.
Light Emulsion - with Subject - Gently lifts shadows and softens highlights for a subtle, film-inspired finish.
Light Emulsion - without Subject - Applies subtle film-inspired toning to the background while preserving the subject.

Sundance Collection Presets

CREAMS, MATTES & EMULSIONS

Heavy Emulsion - with Subject - Produces stronger film-inspired toning with lifted shadows and subdued highlights.
Heavy Emulsion - without Subject - Adds pronounced film-inspired toning to the background while preserving the subject.
Matte & Emulsion - with Subject - Combines lifted blacks and softened highlights for a smooth, faded cinematic finish.
Matte & Emulsion - without Subject - Applies a faded cinematic finish to the background while preserving the subject.

Sundance Collection Presets

CALCULATED SOFT FOCUS

Tilt Shift 1 - Smooth, circular bokeh with a modern lens appearance and a selective depth-of-field effect.
Tilt Shift 2 - Soft, bubble-shaped bokeh with defined circular highlights and selective background blur.
Tilt Shift 3 - Vintage-inspired blade bokeh with angular highlights and a soft, selective focus effect.
Tilt Shift 4 - Distinctive ring-shaped bokeh with doughnut-like highlights and selective blur.
Tilt Shift 5 - Cinematic anamorphic bokeh with elongated, oval-shaped highlights and selective focus.
Cat Eye 1 - Smooth, circular bokeh with pronounced cat-eye shaping toward the edges.
Cat Eye 2 - Defined bubble bokeh with cat-eye distortion for a stylized lens effect.
Cat Eye 3 - Vintage-inspired blade bokeh with added cat-eye shaping.
Cat Eye 4 - Ring-shaped bokeh with pronounced cat-eye distortion.
Cat Eye 5 - Cinematic oval bokeh with enhanced cat-eye shaping.
Soft Focus OFF - Removes the Lens Blur effect, restoring the image's original depth of field.

Sundance Collection Presets

CHANGE YOUR FILM GRAIN

Film Grain - Standard - Adds balanced, natural film grain for a classic analog finish.
Film Grain - Fine - Introduces delicate, fine-grain texture for a smooth, refined film look.
Film Grain - Nostalgic - Adds soft, textured grain with a vintage-inspired finish.
Film Grain - Cinematic - Creates pronounced, fine-grain texture for a classic cinematic aesthetic.
Film Grain - Gritty - Adds bold, coarse grain for a raw, textured film appearance.
Film Grain - Texture - Introduces large, visible grain for a distinctive, textured finish.
Film Grain - OFF - Removes film grain for a clean, smooth finish.

Sundance Collection Presets

ETHEREAL AFTERGLOW

H = Horizontal (landscape) | V = Vertical (portrait)

Top Hazy Glow - Adds a soft, atmospheric haze across the upper portion for a dreamy, diffused glow.
Top Cool Glow - Introduces a gentle, cool-toned glow from above for a soft, airy finish.
Top Warm Glow - Washes the upper portion in warm, diffused light for a natural golden glow.
Middle Hazy Glow - Spreads a soft, atmospheric haze through the center for a dreamy, luminous effect.
Middle Cool Glow - Adds a gentle, cool-toned glow through the center for subtle dimension and atmosphere.
Middle Warm Glow - Introduces warm, diffused light through the center for a soft, inviting radiance.
Top Light Split - Right Heavy - Distributes soft overhead light with greater emphasis on the right, creating a natural balance of illumination and depth.
Top Light Split - Left Heavy - Distributes soft overhead light with greater emphasis on the left, creating a natural balance of illumination and depth.
Warm Central Aura - Creates a soft, warm glow around the center for gentle illumination and a luminous finish.
Diffused Light {H} Left - Spreads soft, feathered light from the left across landscape images for natural illumination and atmosphere.
Diffused Light {H} Right - Spreads soft, feathered light from the right across landscape images for natural illumination and atmosphere.

Sundance Collection Presets

ETHEREAL AFTERGLOW

H = Horizontal (landscape) | V = Vertical (portrait)

Diffused Light {V} Left - Adds soft, diffused light from the left of portrait images for gentle illumination and depth.
Diffused Light {V} Right - Adds soft, diffused light from the right of portrait images for gentle illumination and depth.
Bloom Light {H} Left - Introduces a soft, luminous bloom from the left of landscape images, gently diffusing brighter areas.
Bloom Light {H} Right - Introduces a soft, luminous bloom from the right of landscape images, gently diffusing brighter areas.
Bloom Light {V} Left - Adds a radiant, diffused bloom from the left of portrait images for a soft, ethereal glow.
Bloom Light {V} Right - Adds a radiant, diffused bloom from the right of portrait images for a soft, ethereal glow.
Creamy Shadows {H} Left - Softens darker tones on the left of landscape images for smooth, creamy shadow transitions.
Creamy Shadows {H} Right - Softens darker tones on the right of landscape images for smooth, creamy shadow transitions.
Creamy Shadows {V} Left - Gently softens shadows on the left of portrait images for a smooth, creamy finish.
Creamy Shadows {V} Right - Gently softens shadows on the right of portrait images for a smooth, creamy finish.

Sundance Collection Presets

CAMERA SATCHEL EXTRAS

Color Fade - Softens overall color intensity for a muted, faded film finish.
Color Bloom - Enhances color richness for a vibrant, film-inspired look.
Shadow Darken - Deepens shadows for added contrast and dimension.
Highlight Bright - Brightens highlights for a luminous finish.
Shadow Rescue - Recovers shadow detail in darker areas of the image.
Highlight Recover - Restores detail in overly bright highlights.
Contrast Blast - Boosts overall contrast for a bold, dramatic finish.
Decontrast Blast - Reduces contrast for a softer, more subdued look.
Midtone Pop - Enhances midtone contrast for added depth and definition.
Midtone Drop - Softens midtone contrast for a smoother, gentler finish.
Double Clip - Deepens blacks and brightens whites for a punchy, high-contrast look.
Clarity Boost - Enhances midtone detail and texture for added definition.
Dehaze Boost - Reduces atmospheric haze for improved clarity and depth.
Ghost Smoothing - Softens fine detail for a smooth, ethereal finish.
Contour Smoothing - Gently smooths tonal transitions for a softer appearance.
Vertical Vignette - Darkens the top and bottom edges to draw attention toward the center.
Horizontal Vignette - Darkens the side edges to emphasize the subject.
Vignette OFF - Removes vignette adjustments for even edge-to-edge brightness.
Cool Film Matte - Adds a subtle cool-toned matte finish, softening contrast and lifting shadows for a muted, cinematic look.
Warm Film Matte - Adds a soft, warm-toned matte finish with gently lifted shadows for a nostalgic, film-inspired look.
Shadows Matte - Lifts and softens deep shadows, creating a faded film effect while preserving tonal depth.

Sundance Collection Presets

SHANNON'S CURATED RECIPES

Shannon's Curated Recipes brings together 11 complete, film-inspired editing combinations. Each recipe blends carefully selected adjustments into a cohesive look, offering everything from bright, romantic color to rich, atmospheric cinematic tones.

Action Adventure - Builds rich contrast and earthy tones for a bold, cinematic finish with natural depth.
Romantic Comedy - Brightens highlights and enhances warmth for a soft, colorful, and romantic film look.
Period Drama - Softens contrast and mutes colors for a delicate, timeless finish with vintage character.
Rock Opera - Adds tonal depth, richer shadows, and stronger contrast for a bold, expressive film look.
Psychological Thriller - Subdues colors and softens contrast for a muted, moody finish with atmospheric depth.
Spaghetti Western - Enriches warm earth tones and deepens shadows for a rustic, nostalgic cinematic feel.
Science Fiction - Emphasizes cooler tones and dimensional contrast for a clean, contemporary cinematic look.
Historical Documentary - Gently mutes colors and balances contrast for an understated, authentic film finish.
Epic Fantasy - Enriches color and tonal depth while retaining soft highlights for an immersive, cinematic feel.
Fairy Tale Musical - Adds luminous highlights, gentle warmth, and vibrant color for a bright, whimsical finish.
Murder Mystery - Creates subdued color, deeper shadows, and soft tonal transitions for a mysterious, atmospheric look.

Sundance Collection Brushes

SUNDANCE BRUSHES

Warm Colorful Film - Adds rich, warm tones and enhances color for a vibrant, film-inspired finish.
Cool Colorful Film - Introduces cooler tones while enhancing color for a fresh, cinematic film aesthetic.
Warm Sunny Bloom - Adds a soft, warm glow that mimics natural sunlight for a luminous, sun-kissed effect.
Cool Cloudy Bloom - Creates a soft, cool-toned glow that mimics diffused daylight for a dreamy, atmospheric finish.
Rim-Halo Light - Adds a soft halo of light around the subject for enhanced separation and a gentle backlit effect.
Color Pop - Enhances color intensity and vibrancy for a richer, more colorful appearance.
Color Drop - Softens color intensity for a more muted, understated finish.
Warm It Up - Adds gentle warmth to the selected area for a natural, inviting tone.
Cool It Down - Introduces cooler tones to the selected area for a more balanced, refreshing appearance.
Contrast Pop - Increases contrast to enhance depth, definition, and dimension.
Contrast Drop - Reduces contrast for softer tonal transitions and a smoother appearance.

Sundance Collection Brushes

SUNDANCE BRUSHES

Rid the Magentas - Reduces unwanted magenta tones to create a more balanced, natural color appearance.
Rid the Greens - Reduces unwanted green color casts for cleaner, more neutral tones.
Highlight Rescue - Recovers overly bright areas to restore highlight detail and tonal balance.
Shadow Recover - Lifts darker areas to reveal hidden detail while maintaining natural depth.
Dehaze Boost - Reduces atmospheric haze to enhance clarity, contrast, and definition.
Clarity Boost - Enhances midtone contrast to bring out texture, detail, and definition.
Blacken Blacks - Deepens black tones for richer shadows and stronger tonal depth.
Whiten Whites - Brightens white tones for cleaner highlights and enhanced tonal separation.
Dodge Brush - Selectively brightens areas to enhance light, detail, and dimension.
Burn Brush - Selectively darkens areas to add depth, shape, and dimensional contrast.
Fill Light - Gently brightens shadowed areas to create softer, more balanced illumination.
